

Echo Log

70

*Here Is
Upper Columbia Academy
1970...*

There is a section in the human brain called "the memory section." In this spot is stored the memory of everything that has ever happened to you. You are not thinking of these things all the time but are reminded of them by a phrase, a picture, a poem or perhaps a book.

With the help of the lyrics of a song that illustrate the working of your memory, I hope to bring to life our year together. I hope that the memories that have been stored in "the memory section" of your brain will come into focus as you look through the pages of your 1970 Echo Log.

Principal's Message

It is not easy to be a student these days--so much to learn, so many big decisions to make, so many voices calling. It is a time when youth everywhere are confused and misdirected. The old ways of thinking and behaving are being challenged.

But shouldn't the young people on our own campus be in a different position? Can't we find, amidst the reeling morality and quaking value systems, some solid ground? We have "a more sure word of prophecy." We serve the Unchanging Christ. There's one thing sure: whatever we are going to be, we are now becoming. It's a great mistake to try to postpone life. There are no days that do not count.

Be of good courage. "No star is lost we once have seen; we still may be what we might have been." May God bless you.

The future of the world lies more with books than it does with bombs. For all of our modern inventions and twentieth century development of power, the pen is still mightier than the sword. The call of the hour for God's people is the Spirit—anoointed heart and head, the ready hand, the printing press, along with willing hands and feet which will get God's Word and good books to our bewildered generation.

Knowledge destroys lies, erases myths and exterminates prejudices. Honest men seek the facts. From facts the truth can be known. In truth men are made free. Knowledge is a most powerful weapon for truth and freedom. Who can afford to be without it?
