

a time for...

76 - 77

**We do not REMEMBER days,  
WE REMEMBER moments.**

Cesare Pavese

To everything there is a season,  
and a time to every purpose under heaven:  
a time to plant, and a time to pluck up that which is planted;

a time to break down, and a time to build up;  
a time to embrace, and a time to refrain from embracing;  
a time to keep silence, and a time to speak.

- chosen from Ecclesiastes 3

## Health careers are expanding with Portland Adventist Medical Center

Employment in the health field is expected to grow very rapidly.

And students preparing for medical careers can look forward to the brightest of employment prospects. Good pay, good working conditions, and—most important—excellent opportunities to serve where it counts.

This is the projection made by the U.S. Bureau of Labor Statistics in its latest Occupational Outlook report. A wide range of openings is seen through the mid-1980's.

Because of the need to staff the new Adventist Medical Center as well as healthcare facilities at the Mt. Tabor site, the opportunities for employment in this field can be expected to remain as high as they have ever been in the Portland area for some time.

The hospital is always looking for graduates who not only are technically proficient but also are in harmony with the Church's medical ministry objectives.

Some of the distinct advantages in practicing one's chosen profession at Portland Adventist Hospital include association with Christian people who also are committed people, performing one of the Church's most important services—its "right arm" ministry, and meeting the physical needs of people by extending healing to the whole man—including the spiritual. In short, a highly privileged opportunity.

Here are a few of the many opportunities being extended to young specialists, both men and women.

**Physicians**—needs will continue to exist in every specialty, particularly in family medicine.

**Dentists**—opportunities are numerous.

New  
Adventist  
Medical  
Center  
(above) at  
10123 S.E.  
Market in  
Portland is  
expected to  
keep the  
demand for  
health skills  
high.

**Nurses**—the demand for Christian nurses is always strong.

**Technicians**—dental hygienists, medical laboratory workers, respiratory therapists and many other specialists under this general heading are in constant demand.

**Dietitians**—numerous opportunities exist for administrative dietitians, clinical dietitians, research dietitians, dietetic educators, and others.

**Business specialists**—competent graduates are needed to work in administration, purchasing, business and patient accounts, personnel, payroll, and other business entities.

Other opportunities include medical record administrators, pharmacists, occupational therapists, chaplains, and

office secretaries, to name a few.

If you see yourself a part of the Church's healthcare team—soon or sometime in the future—now is a good time to let your interests be known. You can get further information on any medical field simply by addressing your requests to:

You finally made it  
Class of '77!

W. 340 Riverside  
747-8706

"We had joy," remember electing & announcing  
our class officers? Getting our new  
bus, our weeks of prayer? Our goal —  
graduation!

"We had fun," remember throwing people in  
the creek, washing somebody's face with  
snow? Our class picnics ..... throwing  
frisbee's... Remember?

"We had Season in the Sun," registration,  
snow skiing, spring, ..... summer.

"But our time has just begun —" becoming  
an upperclassman, or college ..... 5  
years, 10 years ..... what will we  
all be?

I love you.....
