## To ... Our Faculty

This dedication wasn't written just by me; I wrote it with the help of our students. They were asked what came to mind first when they thought of faculty; "Good sense of humor, Saturday night T.V., dependable, (social!), open homes, sincere, understanding, take late assignments, strict, genuine interest, go out of their way for us, have geared their lives towards us, love and concern," were some thoughts of the students.

Our Faculty play a large part in our lives. All those comments are only a small portion of the love and gratitude we sense and feel towards them for shaping our lives and guiding us.

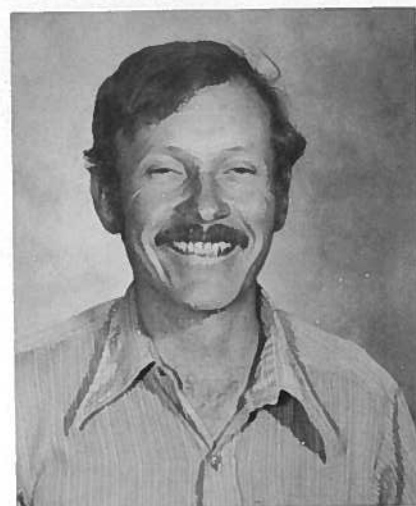

We, the annual staff of 1981-82, are dedicating this annual for each faculty member. To let them remember by this, the great times we've had together.
