84! 84! 84! This shout rises above all others. The Juniors are the largest class this year and we have a lot going for us! Part of what we have going for us are terrific sponsors, Mr. Hardy and Mr. Briggs. They helped us get organized and choose our great class officers.

Sometimes being a Junior is tough, but we are learning a lot. Mr. Peach and Mr. Munroe keep us out of trouble by making sure we have plenty of studying to do for U.S. History and English III, (commonly known as Anguish III).

It is a great feeling to be almost done with high school. We plan to make these last two years and the rest of our lives more meaningful by meeting the needs of those around us and becoming daily closer to Christ.

Most people consider their freshman year or senior year to be their most memorable, but have they forgotten the fun of being a Sophomore?

Hey, this is fantastic! Not only have we started getting serious about our values and goals and grown a lot, we also are finally over the "Freshman jitters" and don't have many hard classes to contend with.

Another reason we're having so much fun is that we have some special sponsors. If Pastor Gilkeson and Mrs. Petty hadn't been at the parties and elections things would have gone as smoothly or been as enjoyable. And our spirit has really sky rocketed this year!

The class of 85 can be summed up as a fun-loving bunch of students who are truly excited about life. But no one can say it better than the Sophomores themselves- "The class of 85 is totally AWESOME!"

The class of '86 has a lot of ambition and are real go-getters. It still wasn't easy starting the year, though. At first we were nervous and unsure about academy life. For many of us it was our first time away from home and we started our year battling homesickness. We didn't always know what we were doing or where we were supposed to be, but we soon caught on.

Now, looking back, we see that the embarrassing moments, the nervousness and the confusion will help prepare us for our future academy years. 1983 also prepared us to realize our great potential for becoming leaders in the future.

## ASB CAMPAIGN A SUCCESS !!

When U.C.A. students put their minds to a project, you can count on it getting done. Evidence of this is our new gym risers. Various money raising programs were set up. The most successful of these was the letter writing campaign aided by Mr. Breakie's weekly pep talks. Prizes ranging from clock-pens (to those earning \$35 or more) to ski trips (for those earning over \$150) were awarded to many students. We were also informed that if we reached our goal, \$9600.00 by January 15, we would receive the ultimate reward ... an extra day of vacation on our February Home Leave. Through the help and guidance of the Lord and the generosity of friends and relatives, we attained our goal!!!!

Not pictured: Susan Sutherland, Mark Johnson, Steve Warren, Doug Brown, Rob Hiner, Cherie Mandigo.

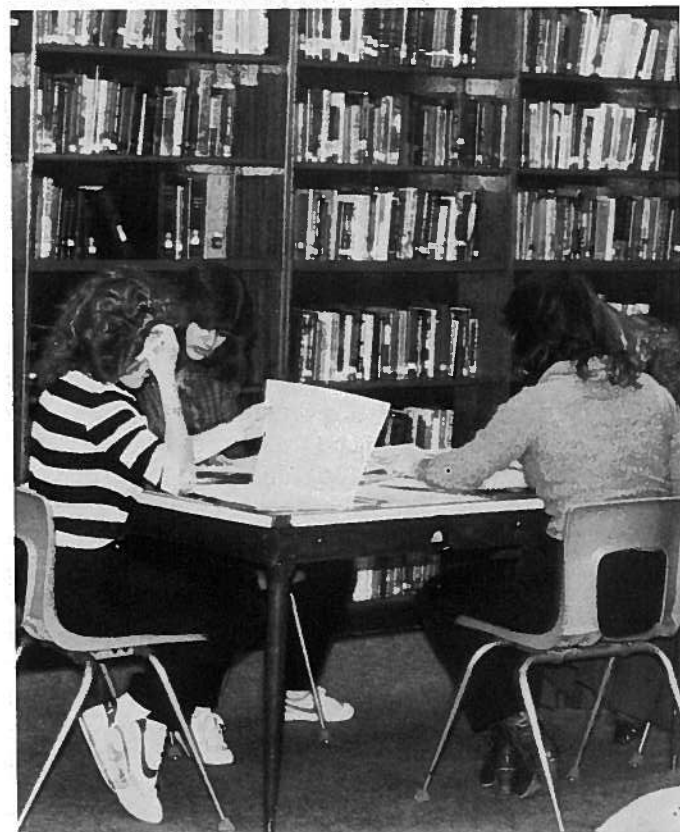

The four-year club has twenty-two people in it this year and is an exceptionally close-knit group. There is a feeling that ties everyone together. Just by going through four years, sharing the good as well as the bad, friendships are bonded into something really special. Lasting relationships have been made that will be treasured long after graduation is over. The club has had a lot of fun this year; from making apple cider in Mr. Peach's driveway in October to showing the film "Chariots of Fire" in February. Their biggest project was the four-year senior trip during spring break, which was a high point of the year. The enjoyable times and comradeship of the group through four years of being together has been a blessing to everyone, and after they have gone their separate ways, many fond memories will remain.

$$E=W^2C$$

We hope Nobel-Prize-winning physicist Albert Einstein would forgive us for taking liberties with his formula for the conversion of matter into energy which launched the Atomic Age.

In our equation, E is education, W is Walla Walla, and C is college.

It simply means that Walla Walla College is one of the best schools you can go to for a balanced Christian education.

E = W<sup>2</sup>C may never win a Nobel Prize. But it can lead you to a fulfilling Christian life.

STUTTGART, WEST GERMANY, April 10, 1965:  
This announcement raced across the Atlantic;  
Presenting  
"Its a Boy!"

The Featherston Family proudly presents their 1st scream-  
ing sensation, Its a Boy, starring Brent Clayton (8# 5oz) 5th  
General Hospital, Bad Cannstatt, West Germany. Wonder of  
the Season . . . World Premiere! (After a limited time, the  
feature will be moved to Washington State, USA for an in-  
definite run)

That was the beginning. We were so proud of you then, our  
special baby boy, and you have continued to make us proud  
through the years with your special qualities.

SPANGLE, WASHINGTON, May, 1983  
Another Announcement goes out . . .

The Faculty and Students of UCA proudly announce the  
graduation and commencement of the class of 1983 . . .  
We know there will be many more announcements and  
special events in your lifetime. But we think these two signi-  
fy something special . . . beginnings and endings and new  
beginnings - Sort of a commencement of your adult life.

We, your family, will always be there to lend you support in  
all your endeavors, and to be proud of your accomplish-  
ments. We thank God for you. Congratulations on your  
many successes.

Your Loving Family  
Dad, Mom, Jeremy and Tiffany.
